# Total living bathroom and wellness

La zona doccia è il fulcro dell'ambiente bagno, dove rilassarsi e lasciar scorrere i pensieri all'inizio o alla fine di una lunga giornata. Due collezioni di prodotto e una molteplicità di modelli e aperture sono state disegnate e progettate per ogni esigenza di spazio e funzionalità. Per rendere unico il relax quotidiano.

*The shower area is the cornerstone of the bathroom space, a place to relax in and allow your thoughts to flow freely at the beginning or end of a long day. Two product ranges and a myriad of models and opening mechanisms have been designed and created for all of your space and functional needs. Turn your everyday relaxation into something special.*

## China Hardware Product Quality Award

China Hardware Products Association was founded in November 1988, it is a social economic organization with legal person status, approved by the former Ministry of Light Industry and registered with the Ministry of Civil Affairs, composed of 3,000 member units, research and design institutions, etc., is a cross-region, cross-departmental, cross-ownership industry organizations.

## ISO 9001-2015 Quality Management System

It is a globally recognized set of standards for quality management and quality assurance, demonstrating that an enterprise meets international requirements and can consistently deliver satisfactory, high-quality products to customers.

## Utility Patents 15, Invention Patents 3

A utility model patent only covers the shape and structure of a product, offering narrower protection scope than an invention patent. The protection term for utility model patents is 10 years, compared to 20 years for invention patents, with both terms calculated from the application date.

## United Kingdom Accreditation Service (UKAS)

UKAS, United Kingdom Accreditation Service, is the national body responsible for accreditation of certification bodies and accreditation of laboratory measurements and tests, and is the most authoritative accreditation body in the Commonwealth and the world.

## Guangdong Famous Trademark

"Guangdong Famous Trademark" refers to registered trademarks that have gained significant market reputation and public recognition within Guangdong Province. The recognition and administration of these trademarks are overseen by the Guangdong Famous Trademark Evaluation Committee, established under the Guangdong Administration for Market Regulation

## Outstanding Contribution Award for Shower Room in Thirty Years of Sanitary Ware

Zhongjie.com began in 2000, is committed to providing consumers with professional quality kitchen guide, brand/product quality query, in-depth product evaluation, product consumer complaints and other comprehensive services, so that consumers are more convenient and efficient purchase of high-quality kitchen products.

## China shower room industry top ten brands

It is China Brand Network, which is generated online every year based on consumer voting, and is an extremely mass-based platform.

## European Union CE certification

The CE mark is a mandatory safety certification that serves as a manufacturer's passport to the European market. Products bearing the CE marking can be freely traded and sold across all EU member states without additional national compliance requirements, facilitating unrestricted movement of goods within the EU.

## Adoption of international standard product marking certificate

The National Standardization Administration of China, After review, it meets the conditions for using products that adopt international standards, has been recorded.

## Creative Industry Competition Mercure Award

Creative Industry Competition of Enterprise Services Department of Guangdong Province, Zhongshan Municipal People's Government, Mercure Product Group, Mercure Award.

## China Innovation and Entrepreneurship Competition

China Innovation and Entrepreneurship Competition is a national entrepreneurship competition jointly organized by the Ministry of Science and Technology, the Ministry of Finance, the Ministry of Education and the All-China Federation of Industry and Commerce with the theme of "scientific and technological innovation, achievement of great achievements" won the second place in the region.

## Cotton Tree China Design Award

Cotton Tree China Design Award is jointly sponsored by China Industrial Design Association and Guangzhou International Design Week, is currently the only one in China to obtain the joint certification of the three international authoritative design organizations - International Confederation of Societies of Industrial Design (ICSID), International Confederation of Graphic Design Associations (ICOGRADA), and International Federation of Interior Architects and Designers Groups (IFI).

## Zhongshan Shower Room Association

Zhongshan City Shower Association adhere to the principles of unity, truth-seeking, service and innovation, relying on the support of government departments, relying on the wisdom and strength of all members, do a good job of two-way service, play a bridge between the government and the enterprise, the link and the role of service, self-discipline, coordination and supervision of the industry, and to do a good job of the government's staff and assistant.

## The elderly and middle-aged group

Relieve joint inflammation, pain, promote microcirculation, Improve immunity, for people with low body temperature in limbs, low back pain, backache, swelling and numbness of lower limbs, etc.

# The curative effect of far infrared mica heater on human body

Far infrared rays are the most penetrating rays of all sunlight into the skin and subcutaneous tissues. It can improve the microcirculation system, promote metabolism, balance the pH of the body, activate water molecules, and improve the oxygen content of the body.

Commonly known as the "light wave of life". It can activate tissue cells, prevent aging and strengthen the immune system.

# INFRARED SWEAT EVAPORATE

## FAR INFRARED

Far infrared ray has strong penetrating force and radiation force, has the remarkable temperature control effect and resonance effect, it is easy to be absorbed by the body and converted into the body's internal energy. Far infrared ray is absorbed by the human body, can make the body water molecules resonance, make the water molecules activated, enhance the bonding force between the molecules, so as to activate protein and other biological macromolecules, so that biological cells in the highest vibration level.

Due to the resonance effect of biological cells, the far-infrared heat energy can be transferred to the deeper part of the human body under the skin.

This kind of action intensity, make capillaries dilate, promote blood circulation, strengthen the metabolism between each organization, increase the regeneration ability of the organization, improve the immune capacity of the organism, adjust the abnormal excited state of the spirit, so as to play the role of medical care.

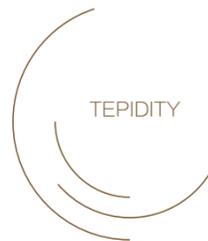

## FAR INFRARED

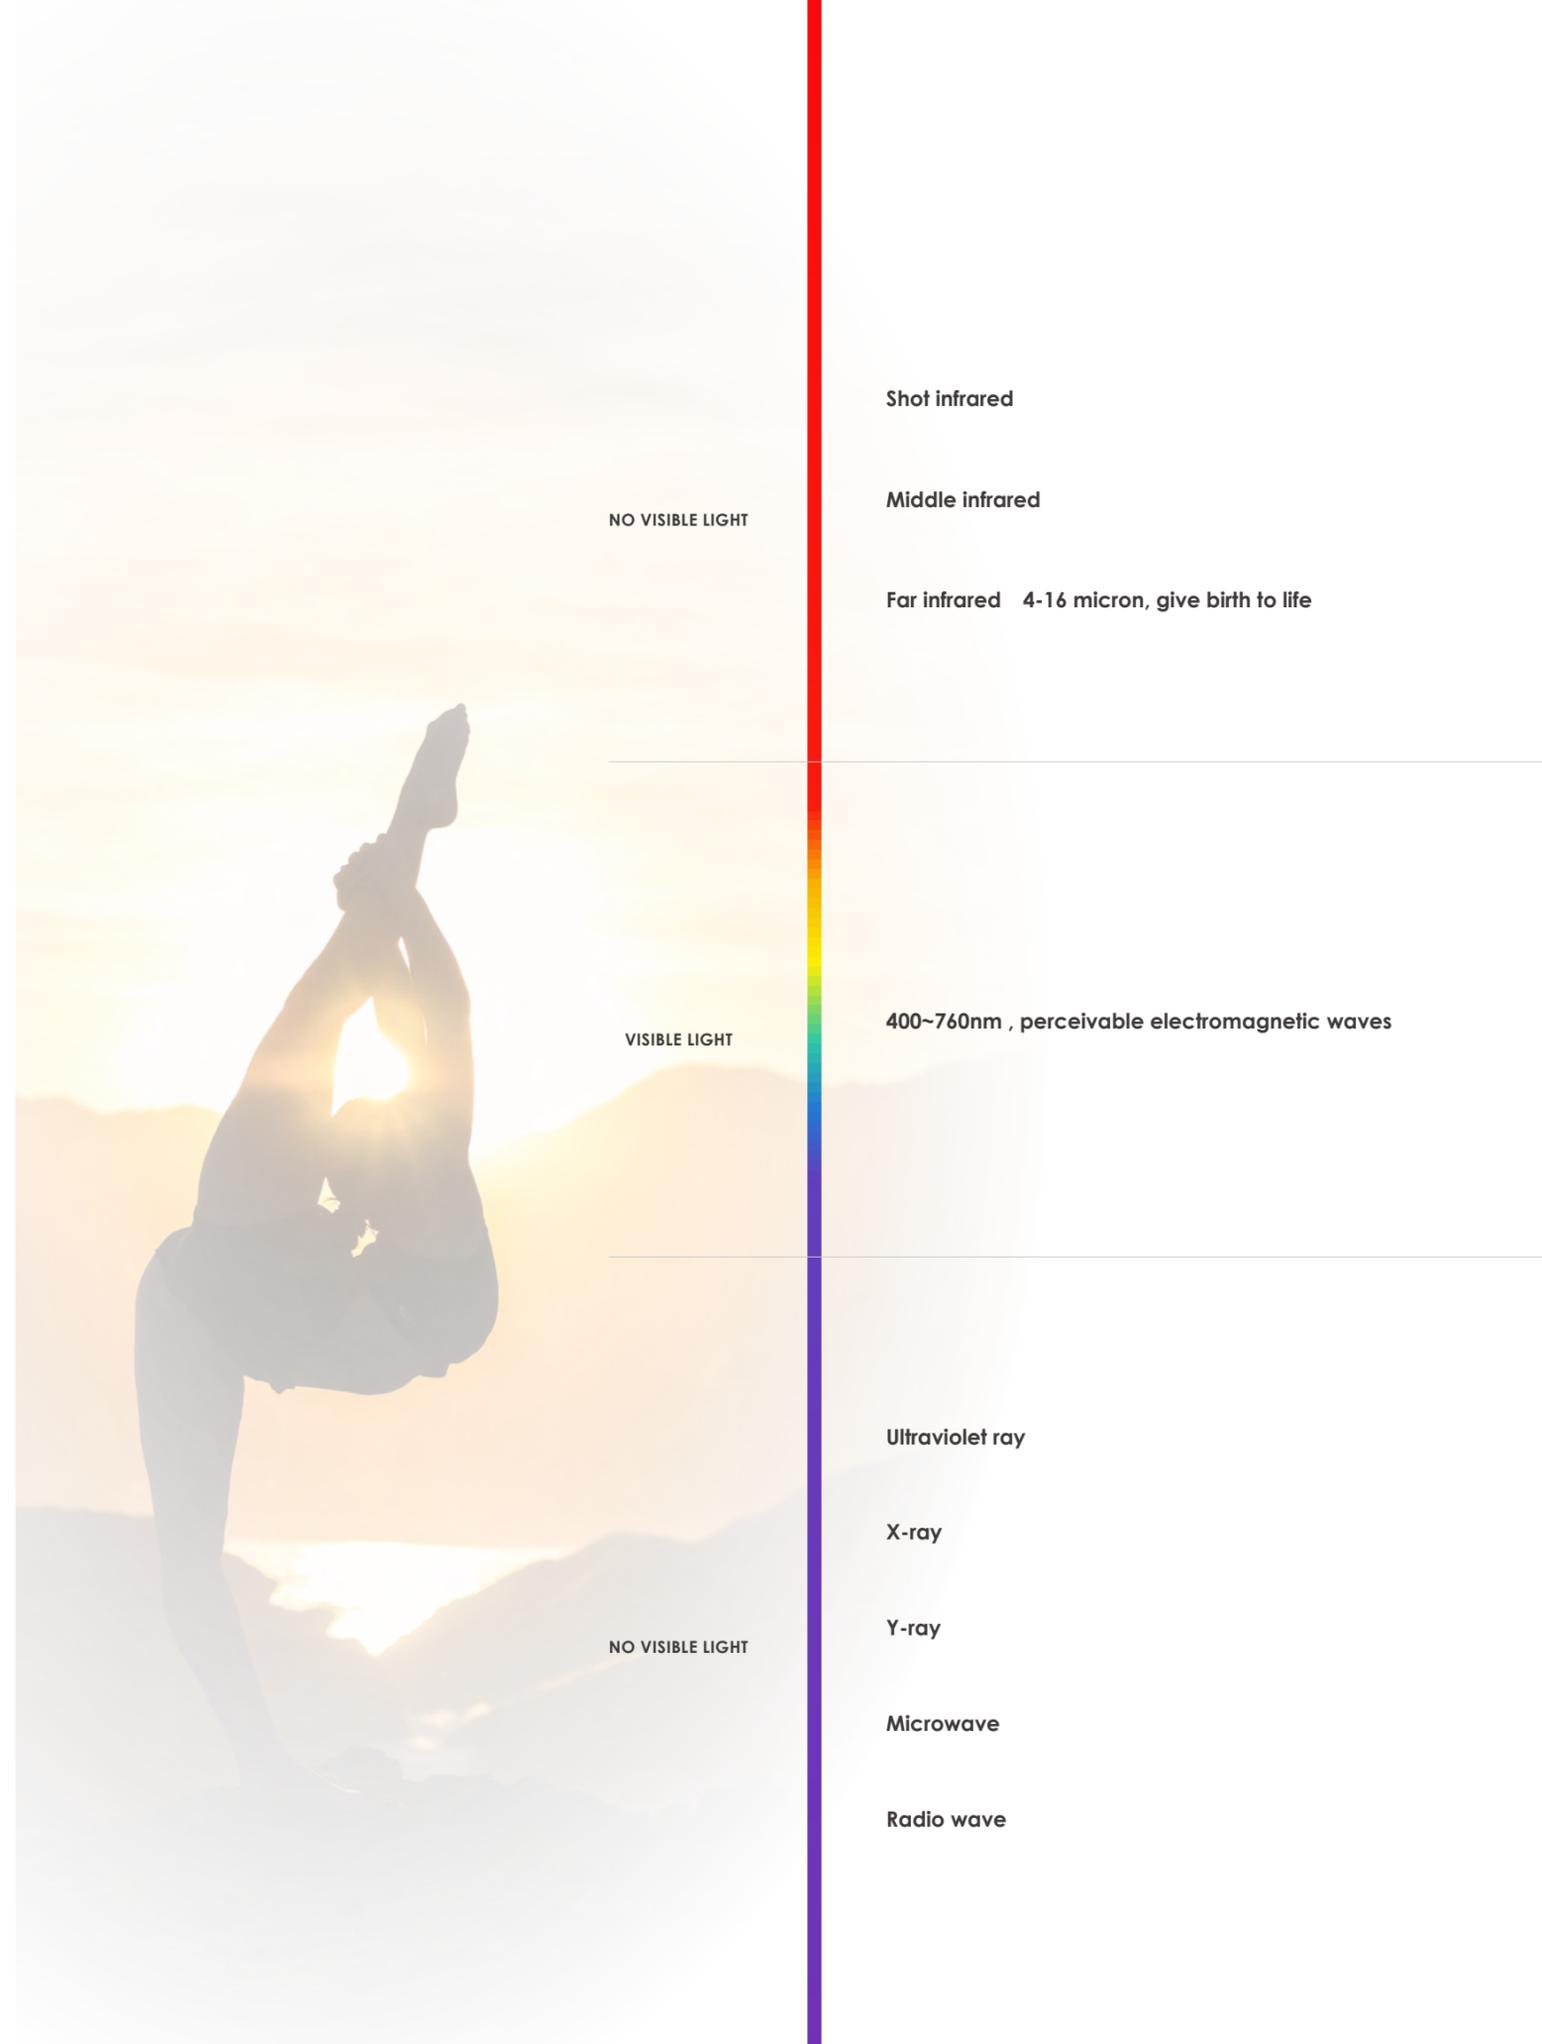

The special spectrum of far infrared is that it can penetrate the surface layer of human body and reach 4-5 mm of the body, directly act on the deep body, activate the cells and molecules in the human body, convert the light energy of far infrared into biological energy, and supplement the energy of human cells.

The body's normal temperature is 36.5 degrees Celsius, which corresponds to 9.36 microns of far-infrared light. The human body is both the emitter of far infrared ray and the receiver of far infrared ray, which will resonate with the wavelength of the same frequency and thus stimulate the movement of human cells.

Under the action of far infrared ray, human body cell element is activated adequately, produce violent motion, make the blood fluidity of human body strengthens, promote metabolism, make the body temperature rises from inside and outside, achieve the effect of warm and hot human body.

NO VISIBLE LIGHT

# INFRARED FITNESS REGIMEN

## Applicable people

### The elderly and middle-aged group

Relieve joint inflammation, pain, promote microcirculation, Improve immunity, for people with low body temperature in limbs, low back pain, backache, swelling and numbness of lower limbs, etc.

### Female group

It has a good effect on women with hormonal imbalance, less sweating and dry skin.

### Postpartum and postillness individuals

These are the people who are physically weak and have lost their vitality after giving birth or recovering from illness. They have pale complexion, weak limbs, and need to have their qi and blood replenished promptly.

### Office workers

High mental stress, prolonged mental exertion or maintaining the same posture for a long time, such as teachers, civil servants, and white-collar workers.

### Specialized occupational groups

High-intensity work such as athletes, dancers, military personnel, drivers, business people, etc.

## Light wave steam 40 minutes equal to the amount of exercise

120-minute yoga

110-minute cycling

70-minute square dance

90-minute wilderness walk

50-minute jog

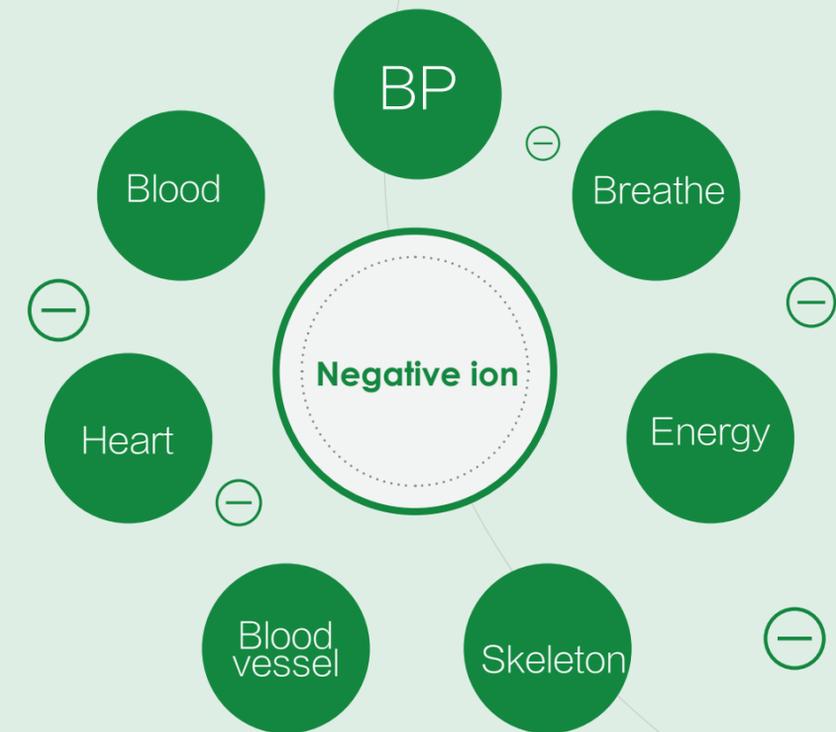

# ACTIVE OXYGEN ANION

## Features: produces small particle size negative oxygen ions

Negative ions can be divided into large, medium and small ions according to the size of migration. Mobility greater than  $0.4 \text{ cm}^2 / (\text{V} \cdot \text{s})$  is small ion, less than  $0.04 / (\text{V} \cdot \text{s})$  is large ion, and the intermediate between the two is medium ion. Because of its high activity and strong natural diffusibility, small ions (or small ion clusters) are more likely to penetrate the blood-brain barrier of the human body and play a broad-spectrum and high-efficiency health care role. More than 30 diseases of eight major systems including the system have good treatment and auxiliary treatment effects.

## Function: Purify the air and benefit your health

Medical data shows that air negative oxygen ions are known as vitamins in the air, can degrade and neutralize harmful gases in the air; adjust the body's physiological functions, eliminate fatigue, improve sleep, prevent respiratory diseases, improve cardiovascular and cerebrovascular diseases, lower blood pressure, Improves appetite and enhances skin elasticity

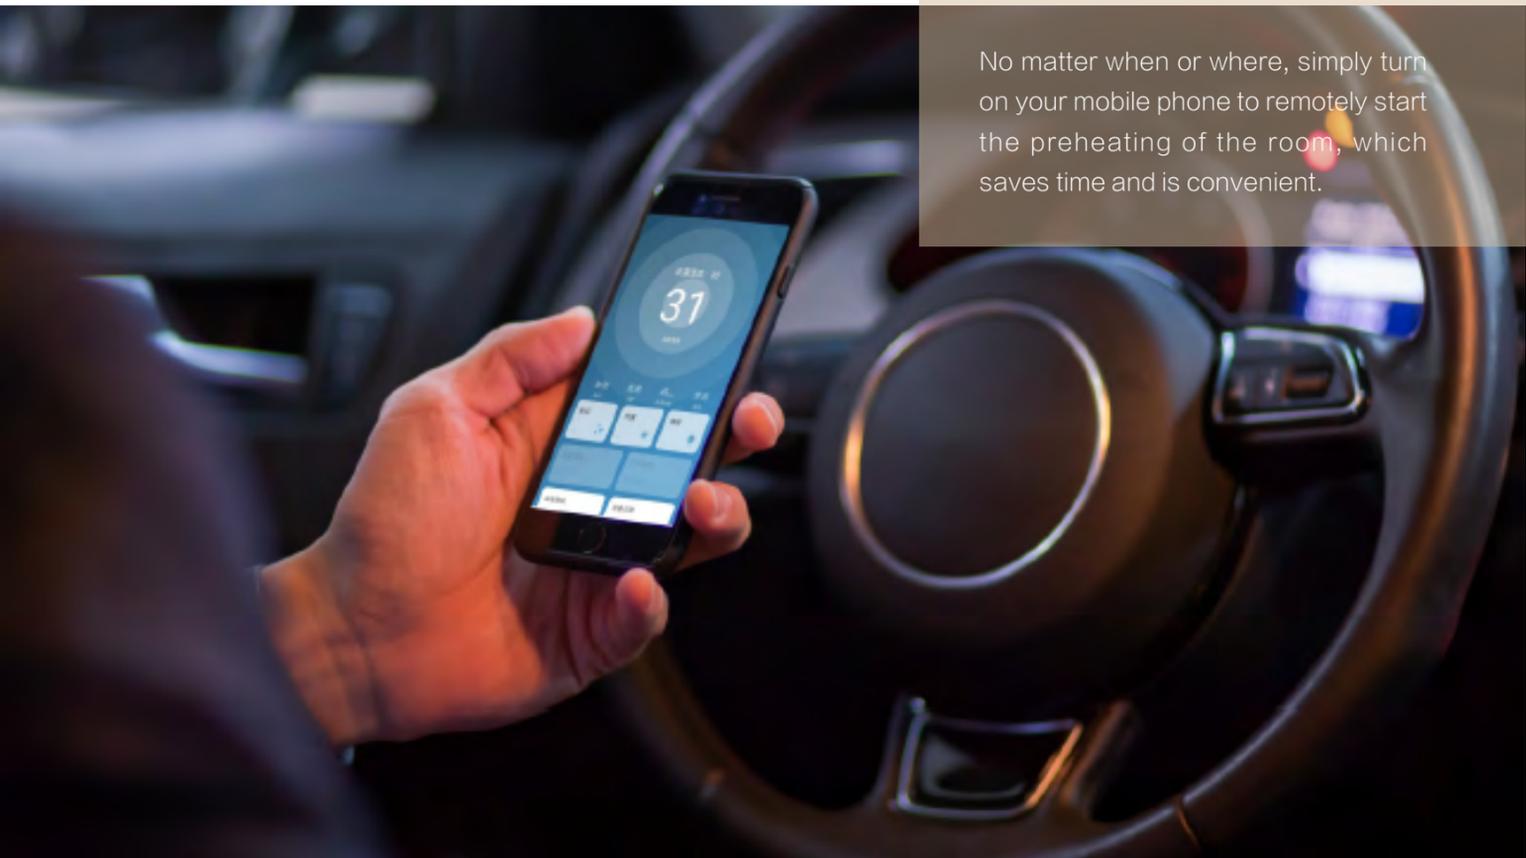

Corresponding standards of negative ion concentration and air quality

Negative ion concentration (QTY/cm3)	Air freshness level	Level	Relationship to health
2000 Above	Very fresh	I	Extremely beneficial
1500-2000	More fresh	II	Very beneficial
1000-1500	Fresh	III	Better
500-1000	Ordinary	IV	Normal
500 Below	Unfresh	V	Unfavorable

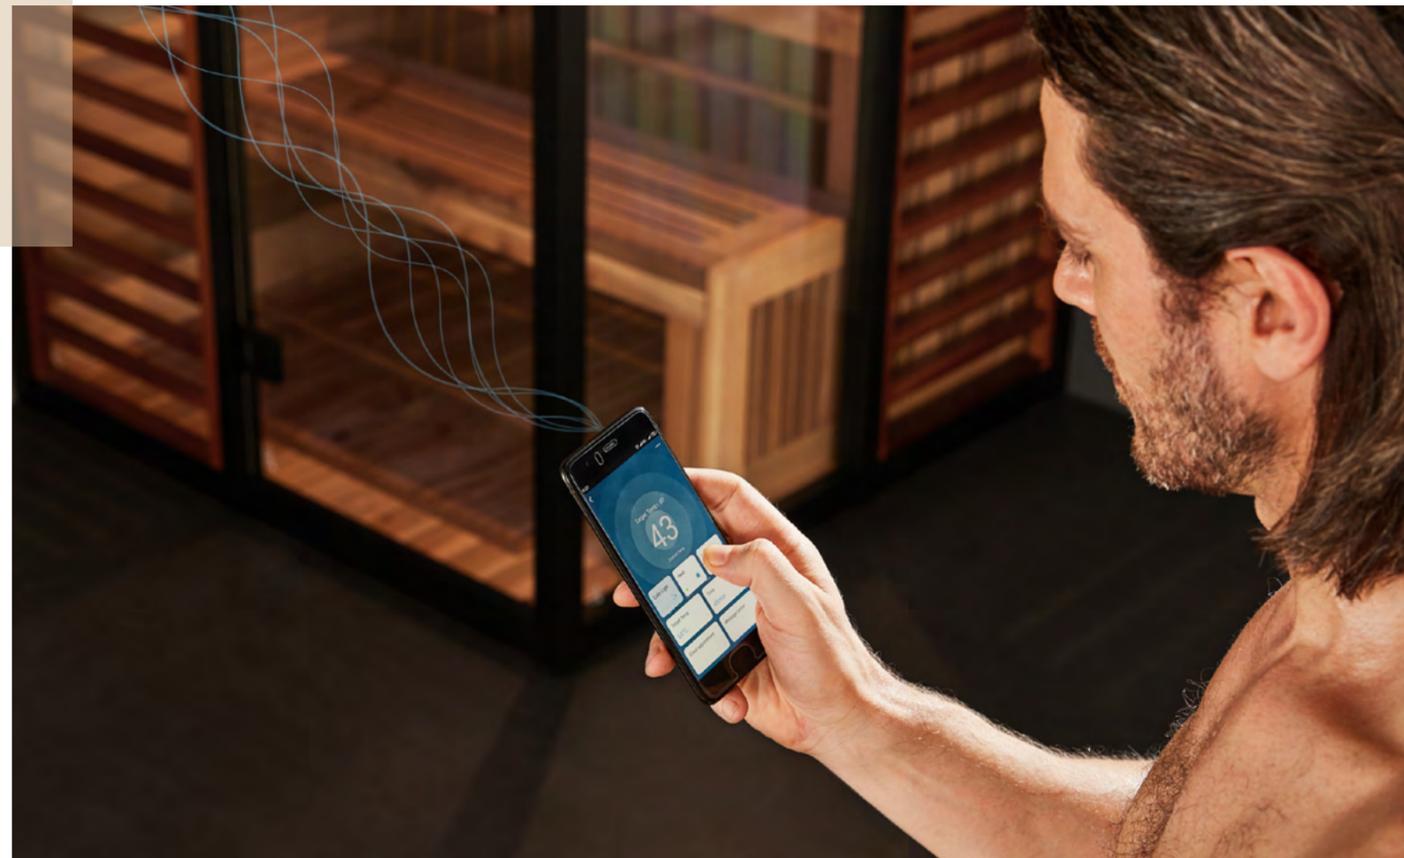

After being tested by an authoritative institution, it was found that the number of negative ions in the Ally Light Wave Sauna Enclosure reached 315,641 /cm3 after 10 minutes of operation.(the amount of negative ions varies slightly depending on the model, but all are far above the optimal level for maintaining health).

# INTELLIGENT CONTROL SYSTEM

No matter when or where, simply turn on your mobile phone to remotely start the preheating of the room, which saves time and is convenient.

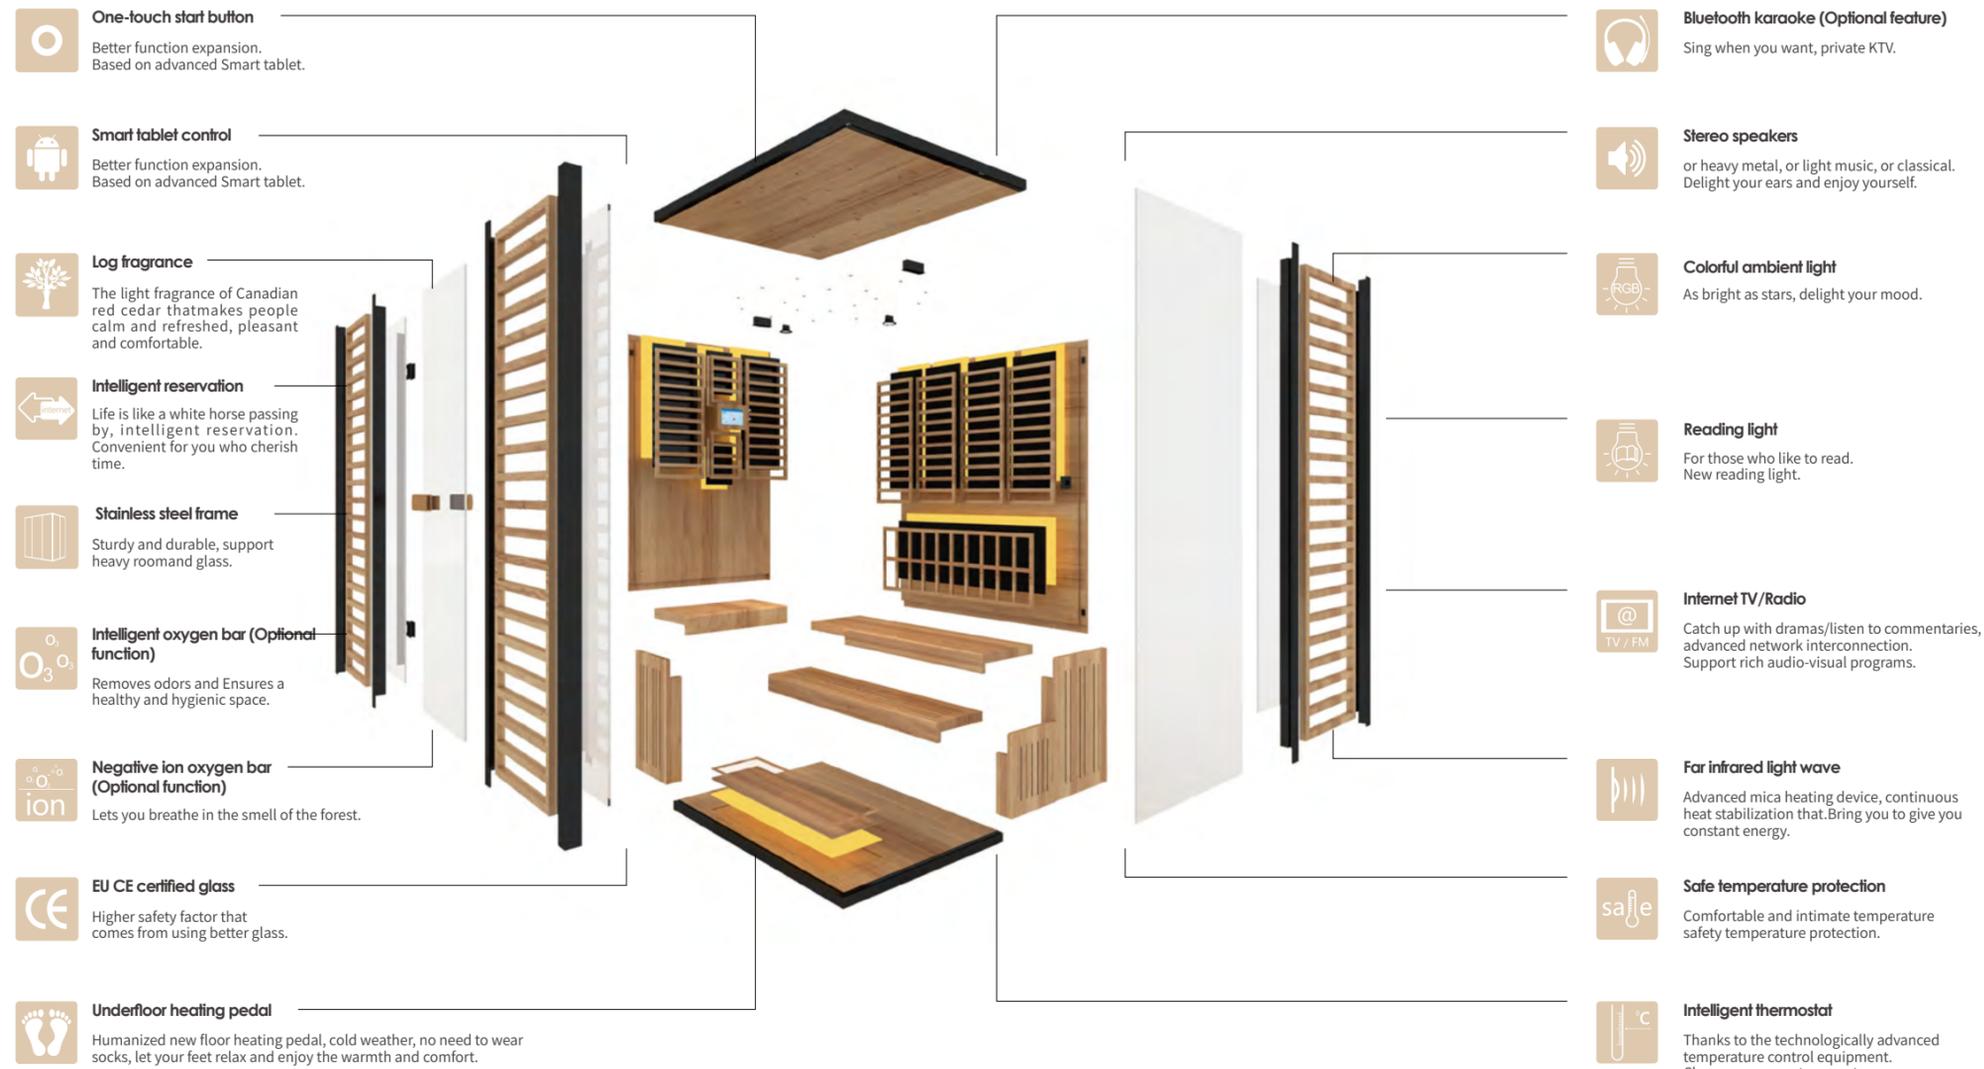

Multi-platform control – more convenient

---

The new light wave room: it adopts tablet computer + mobile phone remote + intelligent voice interaction and dialogue control and ali cloud background big data analysis and operation experience just like using smart touch screen mobile phone to facilitate the expansion of more intelligent functions.

# EXCLUSIVE CUSTOMIZATION

## 01 Health therapy system

Far-infrared mica heating element / floor heating pedal / knee support heating / negative ion oxygen bar / stone therapy / ventilation window / exhaust fan / fresh air system

## 02 Intelligent control system

Smart tablet touch control / microcomputer / microcomputer / one-click start / intelligent temperature control / safety temperature protection / intelligent reservation / mobile device connection / voice control (for home theater)

## 03 Leisure system

## SATISFY SERIES

### AX1719

Light wave sauna enclosure

#### Standardized parameters

- Standard specification(mm): 1200\*950\*2120
- Handle: Stainless steel(Brushed gold)
- Wood: Canadian red cedar
- Glass thickness: 6mm clear glass
- Controller: Smart tablet (Touch)
- Audio-visual entertainment:  
Online video streaming, multimedia music, Bluetooth music, USB music playback
- Lighting: LED Colorful ambient light、Reading light
- Stool: Deluxe independent recliner with integrated armrests
- Accessories: Foot warmer
- Power: Voltage 220V / Standard power 2500W  
Non-standard power, varies with room size
- Heaters: Far-infrared mica heaters

#### Standard configuration

##### Health and Wellness

- Far infrared light wave
- Temperature protection
- Original wood fragrance、  
Natural medicinal properties
- Intelligent thermostat
- Floor heating pedal
- Intelligent oxygen bar

##### Recreation

- Smart tablet
- Stereo speaker
- Reading light
- Colorful ambient light
- Network video

##### Featured configurations

- Offline voice control  
+Cloud intelligence
- Independent single sleeping cabin
- One-touch start button
- Wardrobe-door style concealed  
top-bottom hinges
- Wardrobe-door style aluminium  
alloy invisible frames
